Education

Maharaja Surajmal Institute of Technology, Delhi

Nov 2022 – Jun 2026

Bachelor of Technology in Computer Science Engineering

- GPA: 8.26/10
- **Coursework:** DBMS, Data Structures, Operating Systems, Computer Networks, Algorithms, OOP, Theory of Computation

Experience

Revino Solutions

Remote

Software Development Intern

Jun 2025 – Present

- Developing “EmpowerHer” – a career platform focused on empowering women through curated job listings and mentorship programs.
- Developing a MERN stack job portal with RESTful APIs and secure user authentication (JWT).
- Building dynamic recruiter applicant dashboards with job listing, and application tracking

Voith Digital Solutions

Noida

Intern – Network Engineering

Jul 2024 – Aug 2024

- Studied OSI Model, TCP/IP, routing, switching and concepts relevant to industrial IoT networks.
- Created internal documentation to support knowledge transfer on key industrial protocols such as PROFINET.
- Observed and learned basic network configuration practices through guided simulations using Cisco Packet Tracer.

Projects

CrackIt – AI Interview Preparation [🔗](#)

- Built a Next.js platform for AI-driven interview preparation, generating role-specific questions using Gemini API and MongoDB.
- Implemented OAuth (Google, GitHub) with NextAuth.js and Stripe API for secure authentication and subscription payments.
- Developed a responsive user dashboard with HeroUI and Tailwind CSS to dashboard analytics for user insights
- Currently optimizing Stripe payment workflows and adding admin dashboard to manage users effectively.

JobInsider – MERN Stack Job Portal [🔗](#)

- Developed a MERN stack job portal with role-based access for recruiters to post jobs and candidates to apply with resumes.
- Integrated Cloudinary and Multer for secure resume uploads and built advanced job search with keyword and location filters.
- Designed responsive dashboards with Tailwind CSS and JWT for secure and user-friendly job tracking.

Technologies

Languages: Java, SQL, JavaScript, TypeScript, HTML, CSS, Bash

Frameworks/Tools: MERN, Next.js, React Router, Tailwind CSS, HeroUI, REST API, Mongoose, NextAuth.js, Stripe API, Gemini API, Nodemailer, Cloudinary, Multer

Other: Git, VS Code, JWT, Webhooks, OAuth, Responsive Web Design, Cisco Packet Tracer
